WHAT'S ON OUR STYLE RADAR

We 'Heart' Kerry Washington's Look

The *Scandal* beauty gave us major Valentine's Day outfit inspiration in her sweet Dolce & Gabbana dress with flirty touches including red nails, red lips and the red heart on her Roger Vivier cross-body bag. Fun fact: Her Sophia Webster shoes have polka-dot heels too!

Natalie Portman Plays Runaway Bride

Miss Dior's face may be happily married in real life, but she escapes a wedding on the French Riviera via helicopter in the brand's latest ad campaign. The stunts were cool, but the dress stole the show: It took more than 600 hours to hand-create.

All-Americans Lingerie

Keri Russell's Soviet-spy alter ego on *The Americans* is feeling the heat this season—and so will you, in this racy lingerie line that the show's costume designer Jenny Gering helped curate for Cosabella. "It's sexy without trying too hard," Gering says.
